High School Graduates:		Contracted Operation	
High School Diplomas-Regular	50	* Certificates of Completion issued at a district level	
Other Completions*	0	** Limited English Speaking (LEP)	

Superintendent's Highlights

The 1998-99 year was one of development and innovation. We have partnered with 19 other school districts to form ARTEC. We received a 4.8 million dollar grant to develop a technical program for our students. We have been working very hard with other districts to increase our offering of classes.

We have focused in our staff development on reading, writing, and technology. This has been very beneficial to our students and teachers. They have each spent many days in inservice training. This is resulting in increased student achievement.

We have just about completed a strategic plan and a professional development plan for the district. This plan includes strategies to deal with our growth. A curriculum director has hired and we embarked on a journey to align our curriculum.

We have enjoyed a very positive year with wonderful community support as we have worked to increase learning opportunities for our students.

Progress Towards Meeting District Goals

1998-99 Goals	Progress
---------------	----------

Each student will be an independent reader

The teachers have attended a variety of workshops and classes that has provided them with the knowledge and skills necessary to better meet students needs. They have focused on assessment and remediation.

To raise the academic achievement of all students and to prepare all students with the basic skills for responsible citizenship, positive family life, productive employment and life long learning.

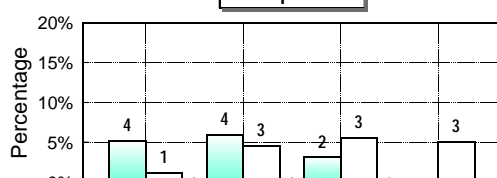

Teachers have been given the opportunity to attend a vast amount of in service, classes, and workshop training through grants that have been received. They have increased their technological skills, their teaching methods, increased their knowledge of the content areas and their ability to relate well with students. We are participating in a consortium with 19 other school districts, CSI and partnered with business to make sure that we are preparing students with the knowledge and skills that are necessary to succeed in their community and world.

Student Profiles

Ethnicity

Race	Male	Female	Total
White	41.04%	35.19%	76.23%
